

DANIEL AGG

FULL STACK DEVELOPER

I'm a full stack developer, with 6+ years of professional experience in enterprise environments, building back-, and frontends with various technologies, designing and developing scalable, often distributed infrastructures on Microsoft Azure.

2021 - NOW

FULL STACK DEVELOPER

[Apiumhub](#)

Developer and “coordinator” developer in a B2B project: I am part of a team building a portal in which the client’s suppliers (~20.000 users) could securely connect to-, and access parts of the client’s internal system, leveraging Azure Active Directory’s B2B capabilities. I had the chance to work together with the client’s architect to design and build the solution from the ground up (ASP.NET Core w/ React). Alongside my backend, frontend and DevOps duties, during the project, I supported the client with various ETL sub-projects, successfully moving and transforming data from legacy, on-premise systems to the cloud. I have worked closely with the business side, supporting the client in switching to Agile project management philosophies.

2018 - 2021

FULL STACK DEVELOPER

[Glownexus](#)

I have worked on various projects, ranging from small-scale, internal apps to enterprise solutions, used globally. I had the chance to transition into the role of a full stack developer, coming from a pure backend path, as well as experience modern approaches to software development, such asDDD, BDD and test-driven development. I was awarded the ‘Delivery Excellence Award’ for completing multiple spikes which convinced a potential client to entrust the services offered by the company.

2016 - 2018

.NET DEVELOPER / JUNIOR .NET DEVELOPER

[Atos Consulting](#)

I was working on various, brown-field backends developed in the .NET ecosystem - mostly via ASP.NET with WCF.

BACKEND SKILLS

ASP.NET Core
Express
MS SQL
PostgreSQL
MongoDB
GraphQL
JMeter / Taurus
Redis
Strapi

FRONTEND SKILLS

React
NextJS
React Query / Redux
Vue
Svelte / SvelteKit
TailwindCSS
Jest
Cypress
Adobe XD

MISC SKILLS

Microsoft Azure
Azure DevOps
Jenkins
Docker
Kubernetes
Terraform
DDD, BDD, TDD
Agile (Scrum, Kanban)
Git

BSc BUSINESS IT • [Corvinus University of Budapest](#)

2014 - 2019

Bachelor’s degree in Computer Science, with focus on both the technology-, and business side. I took part in a program supporting exchange students.

CERTIFICATIONS

AZ-203 Developing Solutions for Microsoft Azure
(2019 - 2021)

SPOKEN LANGUAGES

English, Hungarian.

FUN FACT

A terrible guitarist with great enthusiasm for grocery store wine.
